

## Westwood Holdings Group, Inc. Reports Fourth Quarter and Fiscal Year 2018 Results

February 6, 2019

DALLAS, Feb. 06, 2019 (GLOBE NEWSWIRE) -- Westwood Holdings Group, Inc. (NYSE: WHG) today reported fourth quarter earnings. Highlights from the quarter include:

- Revenues of \$26.1 million compared with \$33.9 million a year ago and \$29.9 million in the third quarter.
- Net income of \$5.4 million compared with \$2.9 million in 2017's fourth quarter and was flat with the third quarter.
- Our LargeCap, SMidCap, Emerging Markets, Emerging Markets Plus and Emerging Markets SMid strategies beat their primary benchmarks.
- Repurchased 108,289 shares of our common stock for an aggregate purchase price of \$4.0 million.
- At year-end, Westwood had \$118.2 million in cash and short-term investments, stockholders' equity of \$161.1 million and no debt.

Revenues of \$26.1 million decreased \$7.8 million from last year's fourth quarter on lower average assets (AUM) due to net outflows, market depreciation and the sale of the Omaha-based component of our Private Wealth business. Revenues decreased \$3.7 million from the third quarter on lower average AUM.

AUM at December 31, 2018 totaled \$16.6 billion, compared to \$24.2 billion at December 31, 2017 and \$20.8 billion at September 30, 2018.

Fourth quarter net income of \$5.4 million compared with \$2.9 million in 2017's fourth quarter primarily due to non-recurrence of a \$3.4 million incremental tax expense as a result of tax reform, and current quarter foreign currency transaction gains, lower incentive compensation costs and a lower federal tax rate, partially offset by lower revenues. Diluted earnings per share (EPS) of \$0.64 compared to \$0.34 for the fourth quarter of 2017. Non-GAAP Economic Earnings increased from \$7.6 million, or \$0.89 per share, in 2017's fourth quarter to \$9.5 million, or \$1.12 per share.

Fourth quarter net income of \$5.4 million was flat with the third quarter. The current quarter benefited from foreign currency transaction gains and lower incentive compensation expense, offset by lower revenues. Diluted EPS of \$0.64 compared to \$0.62 for the third quarter. Non-GAAP Economic Earnings were flat at \$9.5 million, or \$1.12 per share, compared with \$1.11 per share for the third quarter.

Total revenues for 2018 of \$122.3 million compared with \$133.8 million in 2017 due to a \$9.8 million decrease in asset-based advisory fees and a \$2.7 million decrease in Trust fees reflecting lower average AUM, partially offset by a \$1.6 million increase in performance-based advisory fees earned in 2018.

Net income for 2018 of \$26.8 million compared with \$20.0 million in 2017. The current year benefited from foreign currency transaction gains, lower incentive compensation expense and a lower federal tax rate as a result of tax reform, partially offset by lower revenues. Diluted EPS was \$3.13 compared with \$2.38 for 2017. Economic EPS was \$5.14 compared with \$4.63 in 2017.

Brian Casey, Westwood's President & CEO, commented, "Our long-standing focus on holding high-quality companies that are better positioned to withstand severe downturns proved rewarding for our clients. The fourth quarter turned out to be one of the worst on record for nearly all asset classes. Of course, our actively managed strategies were not immune to downward market pressure; however, they held up relatively well when compared to the performance of purely passive funds.

Naturally we are disappointed with the net outflows this year, but we are not standing still. Our investment teams are working hard to deliver competitive results in all market environments, and we continue to build our retail and institutional distribution teams. We are excited to introduce our LargeCap Select product this quarter following five years of incubation, and our Flexible Income product was launched as a new mutual fund late last year."

Westwood's Board of Directors declared a quarterly cash dividend of \$0.72 per common share, payable on April 1, 2019 to stockholders of record on March 8, 2019.

Economic Earnings and Economic EPS are non-GAAP performance measures and are explained and reconciled with the most comparable GAAP numbers in the attached tables.

Westwood will host a conference call to discuss fourth quarter and fiscal year 2018 results and other business matters at 4:30 p.m. Eastern time today. As supplemental information, we are providing non-GAAP performance measures that we refer to as Economic Earnings and Economic EPS. We provide these measures in addition to, not as a substitute for, net income and earnings per share, which are reported on a GAAP basis. Management reviews Economic Earnings and Economic EPS to evaluate Westwood's ongoing performance, allocate resources, and review our dividend policy. We believe that these non-GAAP performance measures, while not substitutes for GAAP net income or earnings per share, are useful for management and investors when evaluating Westwood's underlying operating and financial performance and its available resources. We do not advocate that investors consider these non-GAAP measures without also considering financial information prepared in accordance with GAAP.

We define Economic Earnings as net income plus non-cash equity-based compensation expense, amortization of intangible assets, and deferred taxes related to goodwill. Although depreciation on fixed assets is a non-cash expense, we do not add it back when calculating Economic Earnings because depreciation charges represent an allocation of the decline in the value of the related assets that will ultimately require replacement. In addition, we do not adjust Economic Earnings for tax deductions related to restricted stock expense or amortization of intangible assets. Economic EPS represents Economic Earnings divided by diluted weighted average shares outstanding.
