DALLAS, July 29, 2020 (GLOBE NEWSWIRE) -- Westwood Holdings Group, Inc. (NYSE: WHG) today reported second quarter 2020 earnings. Highlights from the quarter include:

- Income Opportunity, Enhanced Balanced, SmallCap Value, Alternative Income, Global Convertible, LargeCap Select and Total Return strategies beat their primary benchmarks for the quarter.
- Income Opportunity, Enhanced Balanced, Alternative Income, Global Convertible, MLP Opportunities and Total Return strategies achieved top quartile institutional rankings.
- Revenues of \$15.9 million compared with \$16.7 million in the first quarter of 2020 and \$21.7 million a year ago.
- Net loss of \$2.6 million compared with net income of \$1.1 million in the first quarter of 2020 and \$1.9 million a year ago. Non-GAAP Economic Earnings of \$0.2 million, compared with \$4.2 million in the first quarter of 2020 and \$4.8 million a year ago.
- Repurchased 407,697 shares of our common stock for an aggregate purchase price of \$8.1 million.
- At quarter-end, Westwood had \$74.2 million in cash and short-term investments, stockholders' equity of \$131.4 million and no debt.

Revenues were lower than the first quarter of 2020 and last year's second quarter principally as a result of lower average assets under management ("AUM").

AUM at June 30, 2020 totaled \$11.9 billion versus \$11.6 billion at March 31, 2020. The increase was due to market appreciation across the majority of our strategies, partially offset by net outflows in our Emerging Market and Global Convertible strategies.

The second quarter net loss of \$2.6 million was lower than the first quarter's net income of \$1.1 million primarily due to lower revenues, foreign currency transaction losses and higher income taxes partially offset by lower operating expenses. Diluted earnings (loss) per share ("EPS") for the second quarter was \$(0.33) compared to \$0.13 for the first quarter. Non-GAAP Economic Earnings for the second quarter were \$0.2 million, or \$0.03 per share, a decrease from \$4.2 million, or \$0.50 per share, in the first quarter.

The second quarter net loss of \$2.6 million was lower than second quarter of 2019 net income of \$1.9 million primarily due to lower revenues, partially offset by lower operating expenses, particularly employee compensation and benefits. Diluted EPS for the second quarter was \$(0.33) compared to \$0.22 for the second quarter of 2019. Non-GAAP Economic Earnings for the second quarter were \$0.2 million, or \$0.03 per share, down from \$4.8 million, or \$0.56 per share for the second quarter of 2019.

Brian Casey, Westwood's President and CEO, commented, "As the Covid-19 pandemic casts its long shadow over our social and business lives, I want to thank all of our Westwood employees, mostly working from home, for serving our clients so well. I am very pleased to report that several of our portfolio strategies beat their benchmarks for the quarter and also performed well against their peers. Many challenges confront us in the current environment and accordingly, with the full support of our board, we have crafted a strategic plan to restructure certain business areas to reduce operating expenses while continuing to invest in our long-term growth initiatives. As part of this plan, our Westwood International Advisors office in Toronto will cease operations towards the end of the third quarter. Reviews of other business units and products not deemed commercially viable in the long run are likely to lead to additional actions that will be covered in the third quarter call. We believe this plan will enable us to better manage our business in this environment as well as pursue an array of future profitable growth initiatives."

Economic Earnings and Economic EPS are non-GAAP performance measures and are explained and reconciled with the most comparable GAAP numbers in the attached tables.

Westwood will host a conference call to discuss second quarter 2020 results and other business matters at 4:30 p.m. Eastern time today. As supplemental information, we are providing non-GAAP performance measures that we refer to as Economic Earnings and Economic EPS. We provide these measures in addition to, not as a substitute for, net income (loss) and earnings (loss) per share, which are reported on a GAAP basis. Our management and Board of Directors review Economic Earnings and Economic EPS to evaluate our ongoing performance, allocate resources, and review our dividend policy. We believe that these non-GAAP performance measures, while not substitutes for GAAP net income (loss) or earnings (loss) per share, are useful for management and investors when evaluating our underlying operating and financial performance and our available resources. We do not advocate that investors consider these non-GAAP measures without also considering financial information prepared in accordance with GAAP.

We define Economic Earnings as net income (loss) plus non-cash equity-based compensation expense, amortization of intangible assets, and deferred taxes related to goodwill. Although depreciation on fixed assets is a non-cash expense, we do not add it back when calculating Economic Earnings because depreciation charges represent an allocation of the decline in the value of the related assets that will ultimately require replacement. In addition, we do not adjust Economic Earnings for tax deductions related to restricted stock expense or amortization of intangible assets. Economic EPS represents Economic Earnings divided by diluted weighted average shares outstanding.
