Firmwide assets under management and advisement totaled \$18.3 billion, consisting of assets under management ("AUM") of \$17.3 billion and assets under advisement ("AUA") of \$0.9 billion.

While revenues were flat compared to the first quarter, second quarter net income of \$1.0 million compared to the first quarter's net income of \$0.5 million on lower operating expenses, primarily related to the timing of compensation and benefits payments. Non-GAAP Economic Earnings of \$2.8 million, or \$0.32 per share, compared with \$2.5 million, or \$0.29 per share, in the first quarter.

Second quarter net income of \$1.0 million compared favorably to last year's second quarter loss of \$2.2 million due to changes in the fair value of contingent consideration in 2024 offset by an increase in income tax expense in 2025. Diluted EPS of \$0.12 compared with a loss of \$0.27 per share for 2024's second quarter. Non-GAAP Economic Earnings were \$2.8 million, or \$0.32 per share, compared with an Economic Loss of \$0.5 million, or \$0.06 per share, in the second quarter of 2024.

Economic Earnings (Loss) and Economic EPS are non-GAAP performance measures and are explained and reconciled with the most comparable GAAP numbers in the attached tables.

Reconciliation of Income (Loss) Attributable to Westwood Holdings Group, Inc. to Economic Earnings (Loss)

(in thousands, except per share and share amounts)

(unaudited)

As supplemental information, we are providing non-GAAP performance measures that we refer to as Economic earnings (loss) and Economic earnings (loss) per share. We provide these measures in addition to, not as a substitute for, income attributable to Westwood Holdings Group, Inc. and earnings per share, which are reported on a GAAP basis. Our management and Board of Directors review Economic earnings (loss) and Economic earnings (loss) per share to evaluate our ongoing performance, allocate resources, and review our dividend policy. We believe that these non-GAAP performance measures, while not substitutes for GAAP income attributable to Westwood Holdings Group, Inc. or earnings per share, are useful for management and investors when evaluating our underlying operating and financial performance and our available resources. We do not advocate that investors consider these non-GAAP measures without also considering financial information prepared in accordance with GAAP.

We define Economic earnings (loss) as income (loss) attributable to Westwood Holdings Group, Inc. plus non-cash equity-based compensation expense, amortization of intangible assets and deferred taxes related to goodwill. Although depreciation on fixed assets is a non-cash expense, we do not add it back when calculating Economic earnings (loss) because depreciation charges represent an allocation of the decline in the value of the related assets that will ultimately require replacement. Although gains and losses from changes in the fair value of contingent consideration are non-cash, we do not add or subtract those back when calculating Economic earnings (loss) because gains and losses on changes in the fair value of contingent consideration are considered regular following an acquisition. In addition, we do not adjust Economic earnings (loss) for tax deductions related to restricted stock expense or amortization of intangible assets. Economic earnings per share represents Economic earnings (loss) divided by diluted weighted average shares outstanding.
